5XTL Series Maize Thresher

5XTL Maize Thresher is designed for gentle separation of maize kernels from the cobs and removal of rachis. They find application mainly in the seed processing sector, where maize cobs are harvested as a whole unit. In the processing plant, the machine is positioned after husking and cob drying. The maize thresher removes the kernels in the gentlest possible way by rubbing the cobs against each other without any risk of harming the germination capacity of the sensitive maize seed.

APPLICATION

5XTL series maize thresher has very high quality and long using life.

- Low damage rate
- Flexible application
- High performance
- Minimum maintenance
- High capacity

Model	Capacity(T/H)	Power(KW)	Dimension(MM)	Weight(KG)
5XTL-3	3	4	1500*900*1100	200
5XTL-5	5	5.5	1600*1000*1200	250
5XTL-10	10	7.5	1974*1000*1200	450
